INSTALLATION OVERVIEW

- 1 Confirm that the mounting location and junction box can support the fixture.
- 2 A qualified licensed electrician should isolate power and install the supplied mounting hardware.
- 3 Set the suspension length before the canopy is secured, following the components supplied with the fixture.
- 4 Use only the lamp type and electrical rating shown on the product label.

SAFETY

Disconnect power before electrical work. Hardwired fixtures must be installed by a qualified licensed electrician in accordance with local electrical codes. Product components and ratings can vary by option; confirm all values on the product label and supplied instructions before installation.

CARE

Switch off and allow the fixture to cool. Dust with a soft, dry cloth. Do not use abrasives, solvents, or excess moisture. Natural stone, glass, ceramic, wood, and hand-finished metal may show normal variation.
